Our Company

General

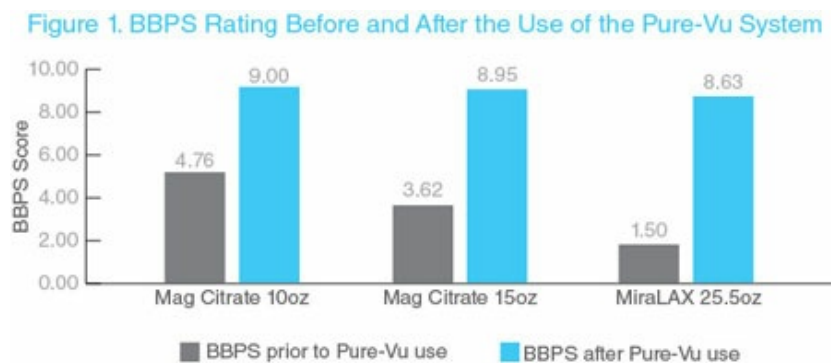

We have developed the Pure-Vu System (the “Pure-Vu System”), a medical device that has received 510(k) clearance from the U.S. Food and Drug Administration (the “FDA”) and CE mark approval in the European Economic Area. The Pure-Vu System is indicated to help facilitate the cleaning of a poorly prepared colon during the colonoscopy procedure. The device integrates with standard and slim colonoscopes to enable safe and rapid cleansing during the procedure while preserving established procedural workflow and techniques by irrigating the colon and evacuating the irrigation fluid (water), feces and other bodily fluids and matter. Challenges with bowel preparation for inpatient colonoscopy represent a significant area of unmet need that directly affects clinical outcomes and increases the cost of care for a hospital in a market segment where most of the reimbursement is under a bundle payment based on a Diagnostic Related Group (a “DRG”), comprising of approximately 1.5 million annual procedures in the U.S. and approximately 3.8 million annual procedures worldwide. The Pure-Vu System does not currently have a unique reimbursement code with any private or governmental third-party payors in any country. To date, as part of the limited market development launch, we have focused on collecting additional clinical and health economic data, as exemplified by the recently initiated Reliable Endoscopic Diagnosis Utilizing Cleansing Enhancement Study (the “REDUCE Study”), along with garnering valuable experience in key hospitals on the use of the Pure-Vu System to support a planned full launch in the United States inpatient colonoscopy market in 2019. We do not expect to generate significant revenue from product sales unless and until we expand our commercialization efforts.

Recent Developments

Clinical Data & Safety

In a recent clinical study performed in the United States, the Pure-Vu System demonstrated safe and effective colonic cleansing in 46 patients receiving a reduced prep regimen. The study was initially designed to compare two different minimal bowel preparation regimens. Initially patients were randomized to receive one of two minimal bowel preparations: three doses of 17 gr. MiraLAX each mixed in 8.5 oz. of clear liquids or two doses of 7.5 oz. magnesium citrate (MgC) each taken with 19.5 oz. of clear liquid. A study amendment early on replaced the MiraLAX arm, due to obvious inferior Boston Bowel Preparation Scale (“BBPS”), a validated assessment instrument, scoring from the outset. The replacement arm consisted of two doses of 5 oz. MgC taken with 16 oz. of clear liquid. All patients were allowed to eat a low residue diet on the day prior and were asked to avoid seeds and nuts for five days prior to their procedure. Study objectives evaluated for each study arm included: (1) improvement of colon cleansing from presentation baseline to completion of the procedure (as assessed by the BBPS) through the use of the Pure-Vu System, (2) time required to reach the cecum, (3) total procedure time, and (4) safety. No significant differences were found between the three groups with regard to demographics or indication for colonoscopy. No serious adverse events related to the device were reported. The use of the Pure-Vu System enabled successful intraprocedural cleansing of the colon and ensured successful completion of all colonoscopies performed (100% success rate). Although there were only 46 patients in the study, there was a highly significant difference in the study population (p value <0.0001) between the baseline preparation and that seen post cleansing with the Pure-Vu System. The use of the Pure-Vu System added some time to the procedure, but the total procedure time was approximately 25 minutes in this study.

The clinical data showing performance of the Pure-Vu System in this study using the BBPS is shown below. The clinical results from the study were presented at the 2018 American College of Gastroenterology (“ACG”) Annual Meeting in October 2018.

REDUCE Study

Published studies have found that the inpatient population experiences rates of insufficiently prepped colons at the time of colonoscopy as high as 55%. This has been shown to lead directly to significantly longer hospital stays and other additional costs due to the need for repeated preps, repeated colonoscopies and additional diagnostic procedures. This is exemplified in a recently published study from Northwestern University Hospital System which showed an average hospital stay extension of two days and cost increase of as much as \$8,000 per patient as a result of challenges associated with bowel preparation. We believe the Pure-Vu System may improve outcomes and lower costs for hospitals by reducing the time to a successful colonoscopy, minimizing delayed and incomplete procedures, and improving the quality of an exam.

On May 23, 2018, we announced the initiation of the Reliable Endoscopic Diagnosis Utilizing Cleansing Enhancement Study (the “REDUCE Study”). The REDUCE Study is a multi-center inpatient prospective trial designed to evaluate the Pure-Vu System’s ability to consistently and reliably cleanse the colon to facilitate a successful colonoscopy in a timely manner in patients who are indicated for a diagnostic colonoscopy. The study will enroll approximately 100 subjects in at least five hospital centers in the United States and Europe.

We expect to announce a top-line readout of the REDUCE Study data in the first quarter of 2019. The primary endpoint of the study is to determine the Pure-Vu System’s rate of improved bowel cleansing level using the BBPS index. Other key data being collected in the study includes the proportion of patients who receive a successful colonoscopy for the intended indication in the first attempt, which impacts the quality of the exam as well as hospital length of stay and costs required for the episode of care. The savings to the hospital can be meaningful as National Inpatient Sample (“NIS”) and other literature sources note that the cost for a standard hospital bed averages \$2,298 and the cost for an intensive care unit (“ICU”) bed averages \$6,546 per day in the U.S.

FDA Clearance to Market Pure-Vu Slim Sleeve

On September 13, 2018, we announced that we received special 510(k) clearance from FDA for the Pure-Vu Slim Sleeve (the “Pure-Vu Slim Sleeve”), a compatible extension to the Pure-Vu System for slim colonoscopes. The Pure-Vu Slim Sleeve design allows the Pure-Vu System access to the full range of procedures in the colonoscopy market as we estimate, through consultation with colonoscopy manufacturing companies, approximately 30% of procedures are performed with a slim colonoscopy. The Pure-Vu Slim Sleeve has the same cleansing performance as the standard Pure-Vu System sleeve, and both versions work with the same Pure-Vu workstation control system. The Pure-Vu Slim Sleeve has been designed to be compatible with smaller diameter and more flexible slim colonoscopes with additional enhancements to our low friction lubricious coating technology to aid in navigation through the colon. The first successful clinical cases using the Pure-Vu Slim Sleeve were completed in October 2018.

Second Generation of Pure-Vu

We expect to submit a Special 510(k) Notice to FDA in the first quarter of 2019 for the Second-Generation (“Gen 2”) of the Pure-Vu System. This premarket notification is a premarket submission used to review with FDA modifications to our devices that can be validated within our Quality Systems and which do not affect the device’s intended use or alter the device’s fundamental scientific technology.

The Gen 2 Pure-Vu System has been designed to improve the mobility and logistics in the setup of the system and will retain all the same functionality as the current generation of the Pure-Vu System in terms of how it cleanses the colon. The Gen 2 Pure-Vu System Workstation will have a reduced footprint and be mounted on a roll stand to allow nursing staff to easily move the Gen 2 Pure-Vu System to different procedure rooms or to the ICU as needed. The Gen 2 Pure-Vu System also has improvements that reduce the number of steps to set up the system and simplifies the loading process onto the colonoscopy.

Additional Clinical Studies and Market Expansion Opportunities

We expect to initiate the EXPEDITE Study (the “EXPEDITE Study”) in the first quarter of 2019. The EXPEDITE Study is a planned feasibility study in hospitalized patients which will be designed to analyze the Pure-Vu System’s ability to minimize the preparation in order to shorten the time to a successful colonoscopy in the inpatient population. We are also working with key centers to generate clinical data on outpatient populations that have difficulty with the pre-procedural preparation to study the Pure-Vu System’s ability to allow these patients to have a successful exam. This data is expected to lay the ground work for future expansion into high need outpatient populations.

Our resources are currently focused on the planned full launch of the Pure-Vu System in the United States inpatient colonoscopy market in 2019. However, we have identified two follow-on market expansion opportunities we may explore in the future. These include the inpatient upper gastrointestinal bleed (“Upper GI”) endoscopy market and the outpatient high medical need colonoscopy market. In the Upper GI bleed endoscopy market, we believe the Pure-Vu System has the potential to be used during endoscopy procedures to remove clots and debris to provide a clear field of view for the endoscopist. Separately, the outpatient high medical need colonoscopy market presents a large potential commercial market opportunity for the Pure-Vu System, as close to 26 million outpatient colonoscopy procedures are performed worldwide. Based on published literature in several peer reviewed journals from 2010 to 2015 and surveys of physicians conducted in 2015, approximately 23% of such colonoscopy patients can have an inadequate preparation, which may lead to repeat procedures earlier than the medical guidelines suggest. We believe use of the Pure-Vu System has the potential to reduce the need for such repeat procedures if used in the outpatient high medical need colonoscopy market. Additionally, if we choose to explore either market, we may be able to leverage our existing hospital and doctor relationships developed through our inpatient colonoscopy sales force to facilitate such expansion.

Intellectual Property Update

Our intellectual property position comprises a highly innovative portfolio covering technologies rooted in systems and methods for cleaning body cavities with or without the use of an endoscope. Currently we have six granted or allowed patents in the U.S., six patents in Asia, four patents in the EU and 27 (11 in the U.S.) pending patent applications in various regions of the world with a focus on the U.S., EU and Japan.

On March 20, 2018, we announced that the European Patent Office (“EPO”) issued Patent No. 3079556 to us titled, “Apparatus and method for coupling between a colonoscopy and add-on tubes.” The patent provides intellectual property protection for our use of the Pure-Vu System in the European market through June 2035.

On March 27, 2018, we announced that the U.S. Patent and Trademark Office (“USPTO”) issued U.S. Patent No. 9,895,483 to us titled, “Systems and methods for cleaning body cavities.” The patent provides intellectual property protection for our use of the Pure-Vu System in the United States through January 2031.

On May 21, 2018, we announced that the Chinese Patent Office (“SIPO”) issued Patent No. ZL201580037467.6 to us titled, “Apparatus and method for coupling between a colonoscopy and add on tubes.” The patent provides intellectual property protection for our use of the Pure-Vu System in China through June 2035.

On July 30, 2018, we announced that the Japanese Patent Office (“JPO”) issued Patent No. 6,362,640 to us titled, “System and method for cleaning body cavities.” The patent provides intellectual property protection for our use of the Pure-Vu System in Japan through June 2031.

Our Risks

Investing in our common stock involves a high degree of risk. You should carefully consider all of the information in this prospectus and in the documents incorporated by reference prior to investing in our common stock. These risks are discussed more fully in the section titled “Risk Factors” beginning on page 8 herein and in our Annual Report on Form 10-K for the year ended December 31, 2017, as updated by our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2018, June 30, 2018 and September 30, 2018, which are incorporated by reference in this prospectus. These risks and uncertainties include, but are not limited to, the following:

- We have incurred substantial operating losses in each year since our inception and expect to continue to incur substantial losses for the foreseeable future. We may never become profitable or, if achieved, be able to sustain profitability;
- If this offering is not successful, there is substantial doubt about our ability to continue as a going concern;
- We may need to raise additional capital in the future;
- We may be unable to obtain or maintain governmental approvals to market our Pure-Vu System outside the United States, including the European Union countries;
- Our Pure-Vu System is not currently reimbursable through private or governmental third-party payors, which could limit market acceptance;
- The Pure-Vu System may not be accepted by physicians and patients;
- Our Pure-Vu System is currently our sole product and we are completely dependent on the successful marketing and sale of this product. There is no assurance that we will be able to develop any additional products;
- We may be unable to protect our intellectual property rights or may infringe on the intellectual property rights of others;
- The manufacture of our Pure-Vu System, and the technology developed thereunder, is subject to certain Israeli government regulations which may impair our ability to outsource or transfer development or manufacturing activities with respect to any product or technology outside of Israel;

- We may face competition from other medical device companies in the future and our operating results will suffer if we fail to compete effectively; and
- We currently have a limited sales and marketing organization. If we are unable to secure a sales and marketing partner and/or establish satisfactory sales and marketing capabilities, we may not successfully commercialize our Pure-Vu System.

Implications of Being an Emerging Growth Company

We are an “emerging growth company,” as defined in the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and, for as long as we continue to be an “emerging growth company,” we may choose to take advantage of exemptions from various reporting requirements applicable to other public companies but not to “emerging growth companies,” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, as amended, (the “Sarbanes-Oxley Act”), reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. We could be an “emerging growth company” for up to five years from the date of our initial public offering in February 2018, or until the earliest of (i) the last day of the first fiscal year in which our annual gross revenues exceed \$1.07 billion, (ii) the date that we become a “large accelerated filer” as defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended, which would occur if the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter, or (iii) the date on which we have issued more than \$1 billion in non-convertible debt during the preceding three-year period. We intend to take advantage of these reporting exemptions described above until we are no longer an “emerging growth company.” Under the JOBS Act, “emerging growth companies” can also delay adopting new or revised accounting standards until such time as those standards apply to private companies. We have irrevocably elected not to avail ourselves of this exemption from new or revised accounting standards and, therefore, we are subject to the same new or revised accounting standards as other public companies that are not “emerging growth companies.”

RISK FACTORS

An investment in our common stock is speculative and illiquid and involves a high degree of risk including the risk of a loss of your entire investment. You should carefully consider the following risk factors, as well as those set forth under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017, as updated by our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2018, June 30, 2018 and September 30, 2018, which are incorporated by reference in this prospectus. These risk factors contain, in addition to historical information, forward looking statements that involve risks and uncertainties. Our actual results could differ significantly from the results discussed in the forward looking statements. The order in which the following risks are presented is not intended to reflect the magnitude of the risks described. The occurrence of any of the following adverse developments described in the following risk factors and in the documents incorporated by reference could materially and adversely harm our business, financial condition, results of operations or prospects. In such event, the value of our common stock could decline, and you could lose all or a substantial portion of the money that you pay for our common stock. In addition, the risks and uncertainties discussed below and in the documents incorporated by reference are not the only ones we face. Our business, financial condition, results of operations or prospects could also be harmed by risks and uncertainties not currently known to us or that we currently do not believe are material, and these risks and uncertainties could result in a complete loss of your investment. In assessing the risks and uncertainties described below, you should also refer to the other information contained in this prospectus (as supplemented or amended) and the documents incorporated by reference in this prospectus.

Risks Related to Our Financial Position and Need for Capital

There is substantial doubt about our ability to continue as a going concern, which will affect our ability to obtain future financing and may require us to curtail our operations.

Our financial statements as of December 31, 2017 were prepared under the assumption that we will continue as a going concern. The independent registered public accounting firm that audited our 2017 financial statements, in their report, included an explanatory paragraph referring to our recurring losses since inception and expressing substantial doubt in our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our ability to continue as a going concern depends on our ability to obtain additional equity or debt financing, attain further operating efficiencies, reduce expenditures, and, ultimately, to generate revenue. We cannot assure you, however, that we will be able to achieve any of the foregoing.

Risks Related to this Offering and Ownership of our Common Stock

After this offering, our officers, directors, and principal stockholders will continue to exercise significant control over our Company, and will control our company for the foreseeable future, including the outcome of matters requiring stockholder approval.

When this offering is completed our officers, directors, entities controlled by our officers and directors, and principal stockholders who beneficially own more than 5% of our common stock before this offering will in the aggregate, beneficially own shares representing approximately 47.76% of our outstanding capital stock immediately after this offering (not including any purchases in this offering by our officers, directors, entities controlled by our officers and directors, and principal stockholders). As a result, such entities and individuals have the ability, acting together, to control the election of our directors and the outcome of corporate actions requiring stockholder approval, such as: (i) a merger or a sale of our company, (ii) a sale of all or substantially all of our assets, and (iii) amendments to our certificate of incorporation and bylaws. This concentration of voting power and control could have a significant effect in delaying, deferring or preventing an action that might otherwise be beneficial to our other stockholders and be disadvantageous to our stockholders with interests different from those entities and individuals. These individuals also have significant control over our business, policies and affairs as officers and directors of our company. Therefore, you should not invest in reliance on your ability to have any control over our company.

Investors in this offering will pay a higher price than the book value of our common stock.

If you purchase common stock in this offering, you will pay more for your shares than the amounts paid by existing stockholders for their shares. You will incur immediate and substantial dilution of \$1.66 per share, representing the difference between our net tangible book value per share after giving effect to this offering. To the extent any outstanding options or warrants are ultimately converted or exercised, you will sustain further dilution. For further information, see the section entitled “Dilution.”

If we sell shares of our common stock in future financings, stockholders may experience immediate dilution and, as a result, our stock price may decline.

We may from time to time issue additional shares of common stock at a discount from the current market price of our common stock. As a result, our stockholders would experience immediate dilution upon the purchase of any shares of our common stock sold at such discount. In addition, as opportunities present themselves, we may enter into financing or similar arrangements in the future, including the issuance of debt securities, preferred stock or common stock. If we issue common stock or securities convertible into common stock, our common stockholders would experience additional dilution and, as a result, our stock price may decline.

We will have broad discretion in how we use the net proceeds of this offering. We may not use these proceeds effectively, which could affect our results of operations and cause our stock price to decline.

We will have considerable discretion in the application of the net proceeds of this offering, including for any of the purposes described in the section entitled "Use of Proceeds." We intend to use the net proceeds from this offering for commercialization activities, research and development activities, including clinical and regulatory development and the continued development and enhancement of our Pure-Vu System, and for working capital and other general corporate purposes. As a result, investors will be relying upon management's judgment with only limited information about our specific intentions for the use of the balance of the net proceeds of this offering. We may use the net proceeds for purposes that do not yield a significant return or any return at all for our stockholders. In addition, pending their use, we may invest the net proceeds from this offering in a manner that does not produce income or that loses value.

An active trading market for our common stock may not be sustained.

Prior to the closing of our IPO, there had been no public market for our common stock. Although our common stock is listed on the Nasdaq Capital Market, the market for our shares has demonstrated varying levels of trading activity. Furthermore, the current level of trading may not be sustained in the future. The lack of an active market for our common stock may impair investors' ability to sell their shares at the time they wish to sell them or at a price that they consider reasonable, may reduce the fair market value of their shares and may impair our ability to raise capital to continue to fund operations by selling shares and may impair our ability to acquire additional intellectual property assets by using our shares as consideration.

Our share price may be volatile, which could subject us to securities class action litigation and prevent you from being able to sell your shares at or above the offering price.

You may be unable to sell your shares of common stock at or above the offering price. The market price for our common stock has been and may continue to be volatile and subject to wide fluctuations in response to factors including the following:

- actual or anticipated fluctuations in our quarterly or annual operating results;
- actual or anticipated changes in our growth rate relative to our competitors;
- failure to meet or exceed financial estimates and projections of the investment community or that we provide to the public;
- issuance of new or updated research or reports by securities analysts;
- share price and volume fluctuations attributable to inconsistent trading volume levels of our shares; additions or departures of key management or other personnel;
- disputes or other developments related to proprietary rights, including patents, litigation matters, and our ability to obtain patent protection for our technologies;
- announcement or expectation of additional debt or equity financing efforts;
- sales of our common stock by us, our insiders or our other stockholders; and
- general economic, market or political conditions in the United States or elsewhere.

In particular, the market prices of early commercial-stage companies like ours have been highly volatile due to factors, including, but not limited to:

- any delay or failure to conduct a clinical trial for our product or receive approval from the FDA and other regulatory agents;
- developments or disputes concerning our product's intellectual property rights;
- our or our competitors' technological innovations;
- fluctuations in the valuation of companies perceived by investors to be comparable to us;
- announcements by us or our competitors of significant contracts, acquisitions, strategic partnerships, joint ventures, capital commitments, new technologies or patents;
- failure to complete significant transactions or collaborate with vendors in manufacturing our product; and
- proposals for legislation that would place restrictions on the price of medical therapies or devices.

These and other market and industry factors may cause the market price and demand for our common stock to fluctuate substantially, regardless of our actual operating performance, which may limit or prevent investors from readily selling their shares of common stock and may otherwise negatively affect the liquidity of our common stock. In addition, the stock market in general, and the Nasdaq Capital Market and emerging growth companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of these companies. In the past, when the market price of a stock has been volatile, holders of that stock have instituted securities class action litigation against the company that issued the stock. If any of our stockholders brought a lawsuit against us, we could incur substantial costs defending the lawsuit. Such a lawsuit could also divert the time and attention of our management.

Shareholders will experience dilution by exercises of outstanding warrants and options.

As of September 30, 2018, there were 2,586,551 shares of our common stock issuable upon the exercise of outstanding warrants, with a weighted average exercise price of \$5.20 per share, and options to purchase an aggregate of up to 1,964,454 shares of our common stock, with a weighted average exercise price of \$4.48 per share. Since September 30, 2018, we have issued (i) an additional 560,000 options to purchase shares of our common stock pursuant to our equity incentive plan, with a weighted average exercise price of \$3.78 per share, and (ii) an additional 42,917 warrants to purchase shares of our common stock with a weighted average exercise price of \$7.48 per share.

The exercise of such warrants and options will result in dilution of your investment. As a result of this dilution, you may receive significantly less than the full purchase price you paid for our securities in the event of liquidation.

We do not currently intend to pay dividends on our common stock in the foreseeable future, and consequently, any gains from an investment in our common stock will likely depend on appreciation in the price of our common stock.

We have never declared or paid cash dividends on our common stock and do not anticipate paying any cash dividends to holders of our common stock in the foreseeable future. Consequently, investors must rely on sales of their common stock after price appreciation, which may never occur, as the only way to realize any future gains on their investments. There is no guarantee that shares of our common stock will appreciate in value or even maintain the price at which our stockholders have purchased their shares.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference in this prospectus contain, and our officers and representatives may from time to time make, “forward-looking statements,” which include information relating to future events, future financial performance, financial projections, strategies, expectations, competitive environment and regulation. Words such as “may,” “should,” “could,” “would,” “predicts,” “potential,” “continue,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates,” “goal,” “seek,” “project,” “strategy,” “likely,” and similar expressions, as well as statements in future tense, identify forward-looking statements. Forward-looking statements are neither historical facts, nor should they be read as a guarantee of future performance or results and may not be accurate indications of when such performance or results will be achieved. Forward-looking statements are based on information we have when those statements are made or management’s good faith belief as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to:

- our limited operating history;
- our history of substantial operating losses in each year since inception and expectation that we will continue to incur substantial operating losses for the foreseeable future;
- our current and future capital requirements to support our development and commercialization efforts for the Pure-Vu System and our ability to satisfy our capital needs;
- our dependence on the Pure-Vu System, our sole product candidate, which is still in development;
- our ability to obtain approval from regulatory agents in different jurisdictions for the Pure-Vu System;
- our Pure-Vu System and the procedure to cleanse the colon in preparation for colonoscopy are not currently reimbursable through private or governmental third-party payors;
- our lack of a developed sales and marketing organization and our ability to commercialize the Pure-Vu System;
- our dependence on third-parties to manufacture the Pure-Vu System;
- our ability to maintain or protect the validity of our patents and other intellectual property;
- our ability to retain key executives and medical and science personnel;
- our ability to internally develop new inventions and intellectual property;
- interpretations of current laws and the passages of future laws;
- acceptance of our business model by investors;
- the accuracy of our estimates regarding expenses and capital requirements; and
- our ability to adequately support growth.

The foregoing does not represent an exhaustive list of matters that may be covered by the forward-looking statements contained herein and in the documents incorporated by reference herein or risk factors that we are faced with that may cause our actual results to differ from those anticipated in our forward-looking statements. Please see “Risk Factors” beginning on page 8 for additional risks which could adversely impact our business and financial performance.

Moreover, new risks regularly emerge and it is not possible for our management to predict or articulate all risks we face, nor can we assess the impact of all risks on our business or the extent to which any risk, or combination of risks, may cause actual results to differ from those contained in any forward-looking statements. The Private Securities Litigation Reform Act of 1995 and Section 27A of the Securities Act of 1933, as amended, do not protect any forward-looking statements that we make in connection with this offering. All forward-looking statements included in this prospectus and in the documents incorporated by reference in this prospectus are based on information available to us on the date of this prospectus or the date of the applicable document incorporated by reference. Except to the extent required by applicable laws or rules, we undertake no obligation to publicly update or revise any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained above and throughout this prospectus and in the documents incorporated by reference in this prospectus. We qualify all of our forward-looking statements by these cautionary statements.

IN ADDITION TO THE ABOVE RISKS, BUSINESSES ARE OFTEN SUBJECT TO RISKS NOT FORESEEN OR FULLY APPRECIATED BY OUR MANAGEMENT. IN REVIEWING THIS PROSPECTUS AND THE DOCUMENTS INCORPORATED BY REFERENCE IN THIS PROSPECTUS, POTENTIAL INVESTORS SHOULD KEEP IN MIND THAT THERE MAY BE OTHER POSSIBLE RISKS THAT COULD BE IMPORTANT.

USE OF PROCEEDS

We estimate that we will receive net proceeds of approximately \$12.11 million from the sale of the shares of common stock offered in this offering, or approximately \$13.99 million if the underwriters exercise their over-allotment option in full, and after deducting the underwriting discounts and commissions and estimated offering expenses payable by us.

We expect to use the net proceeds from this offering for commercialization activities, research and development activities, including clinical and regulatory development and the continued development and enhancement of our Pure-Vu System, and for working capital and other general corporate purposes. Although we currently anticipate that we will use the net proceeds from this offering as described above, there may be circumstances where a reallocation of funds is necessary. The amounts and timing of our actual expenditures will depend upon numerous factors, including our sales and marketing and commercialization efforts, demand for our products, our operating costs and the other factors described under “Risk Factors” in this prospectus. Accordingly, our management will have flexibility in applying the net proceeds from this offering. An investor will not have the opportunity to evaluate the economic, financial or other information on which we base our decisions on how to use the proceeds.

Although we may use a portion of the net proceeds of this offering for the acquisition or licensing, as the case may be, of additional technologies, other assets or businesses, or for other strategic investments or opportunities, we have no current understandings, agreements or commitments to do so.

Pending our use of the net proceeds from this offering, we intend to invest the net proceeds in a variety of capital preservation investments, including short-term, investment-grade, interest-bearing instruments and U.S. government securities.

DIVIDEND POLICY

We have never paid any cash dividends on our common stock. We anticipate that we will retain funds and future earnings to support operations and to finance the growth and development of our business. Therefore, we do not expect to pay cash dividends in the foreseeable future following this offering. Any future determination to pay dividends will be at the discretion of our board of directors and will depend on our financial condition, results of operations, capital requirements and other factors that our board of directors deems relevant. In addition, the terms of any future debt or credit financings may preclude us from paying dividends.

In addition, the ability of Motus GI Medical Technologies Ltd., an Israeli Company (“Opco”), our direct wholly-owned operating subsidiary, to distribute dividends may be limited by Israeli law. The Israeli Companies Law, 1999, or the Israeli Companies Law, restricts Opco’s ability to declare dividends. Unless otherwise approved by a court, Opco can distribute dividends only from “profits” (as defined by the Israeli Companies Law). Dividends may be paid with the approval of a court, at a company’s request, provided that there is no reasonable concern that payment of the dividend will prevent the company from satisfying its current and foreseeable obligations, as they become due.

The payment of dividends by Opco to Holdings may be subject to Israeli withholding taxes.

CAPITALIZATION

The following table sets forth our cash and cash equivalents and short-term investments balance and capitalization as of September 30, 2018:

- on an actual basis; and
- on an as-adjusted basis to reflect the issuance and sale by us of 5,000,000 shares of our common stock in this offering at the public offering price of \$2.70 per share, after deducting underwriting discounts and commissions and estimated offering expenses payable by us and the receipt by us of the proceeds of such sale.

You should read the selected data in the table below together with the sections titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2017 and our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2018, June 30, 2018 and September 30, 2018 which are incorporated by reference in this prospectus, and our consolidated financial statements and related notes incorporated by reference in this prospectus.

The number of shares of our common stock to be outstanding upon completion of this offering is based on 15,690,151 shares of our common stock outstanding as of September 30, 2018 and excludes:

- 1,964,454 shares of our common stock issuable upon the exercise of outstanding stock options issued under our equity incentive plan as of September 30, 2018, with a weighted average exercise price of \$4.48 per share, and 560,000 shares of our common stock issuable upon the exercise of outstanding stock options issued under our equity incentive plan after September 30, 2018, with a weighted average exercise price of \$3.78 per share;
- 653,272 additional shares of our common stock reserved for future issuance under our 2016 Equity Incentive Plan as of September 30, 2018, reduced by 560,000 shares of our common stock issuable upon the exercise of outstanding stock options issued under our equity incentive plan after September 30, 2018 as described in the bullet above;
- 2,586,551 shares of our common stock issuable upon the exercise of outstanding warrants with a weighted average exercise price of \$5.20 per share as of September 30, 2018;
- 42,917 shares of our common stock issuable upon the exercise of warrants issued subsequent to September 30, 2018 with a weighted average exercise price of \$7.48 per share; and
- any automatic increases in the number of shares of our common stock reserved for future issuance under our 2016 Equity Incentive Plan.

DILUTION

If you invest in our common stock in this offering, your ownership interest will be immediately diluted to the extent of the difference between the public offering price per share of our common stock and the as adjusted net tangible book value per share of our common stock immediately after this offering.

Our historical net tangible book value is the amount of our total tangible assets less our total liabilities. Net historical tangible book value per share is our historical net tangible book value divided by the number of shares of common stock outstanding as of September 30, 2018. Our historical net tangible book value as of September 30, 2018 was \$9.4 million, or \$0.60 per share of common stock.

As adjusted net book value is our net tangible book value, plus the effect of the sale of shares of our common stock in this offering at the public offering price of \$2.70 per share and after deducting the underwriting discounts and commissions and estimated offering expenses payable by us. Our as adjusted net book value as of September 30, 2018 would have been approximately \$21.55 million, or \$1.04 per share. This amount represents an immediate increase in as adjusted net tangible book value of \$0.44 per share to our existing stockholders, and an immediate dilution of \$1.66 per share to new investors participating in this offering. Dilution per share to new investors is determined by subtracting as adjusted net tangible book value per share after this offering from the public offering price per share paid by new investors.

The following table illustrates this dilution on a per share basis:

| | | | |
|---|----|-------------|-------------|
| Public offering price per share | | \$ | 2.70 |
| Historical net tangible book value per share as of September 30, 2018 | \$ | 0.60 | |
| Increase in net tangible book value per share as of September 30, 2018, attributable to new investors | \$ | <u>0.44</u> | |
| As adjusted net tangible book value per share, after giving effect to this offering | | | <u>1.04</u> |
| Dilution of as adjusted net tangible book value per share to new investors | \$ | | <u>1.66</u> |

If the underwriters exercise their over-allotment option in full, the as adjusted net tangible book value per share after giving effect to this offering would be \$1.09 per share, which amount represents an immediate increase in the as adjusted net tangible book value of \$0.49 per share of our common stock to existing stockholders and an immediate dilution in net tangible book value of \$1.61 per share of our common stock to new investors purchasing shares of common stock in this offering.

If any shares are issued upon the exercise of outstanding options or warrants, you will experience further dilution. The above discussion and table are based on 15,690,151 shares of our common stock outstanding as of September 30, 2018 and excludes:

- 1,964,454 shares of our common stock issuable upon the exercise of outstanding stock options issued under our equity incentive plan as of September 30, 2018, with a weighted average exercise price of \$4.48 per share, and 560,000 shares of our common stock issuable upon the exercise of outstanding stock options issued under our equity incentive plan after September 30, 2018, with a weighted average exercise price of \$3.78 per share;
- 653,272 additional shares of our common stock reserved for future issuance under our 2016 Equity Incentive Plan as of September 30, 2018, reduced by 560,000 shares of our common stock issuable upon the exercise of outstanding stock options issued under our equity incentive plan after September 30, 2018 as described in the bullet above;
- 2,586,551 shares of our common stock issuable upon the exercise of outstanding warrants with a weighted average exercise price of \$5.20 per share as of September 30, 2018;
- 42,917 shares of our common stock issuable upon the exercise of warrants issued subsequent to September 30, 2018 with a weighted average exercise price of \$7.48 per share; and
- any automatic increases in the number of shares of our common stock reserved for future issuance under our 2016 Equity Incentive Plan.

PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our common stock as of September 30, 2018 by:

- each of our stockholders who is known by us to beneficially own 5% or more of our common stock;
- each of our named executive officers;
- each of our directors; and
- all of our directors and current officers as a group.

Beneficial ownership is determined based on the rules and regulations of the SEC. A person has beneficial ownership of shares if such individual has the power to vote and/or dispose of shares. This power may be sole or shared and direct or indirect. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of our common stock that are subject to options or warrants held by that person and exercisable as of, or within 60 days of, September 30, 2018 are counted as outstanding. These shares, however, are not counted as outstanding for the purposes of computing the percentage ownership of any other person(s). Except as may be indicated in the footnotes to this table and pursuant to applicable community property laws, each person named in the table has sole voting and dispositive power with respect to the shares of our common stock set forth opposite that person's name. Unless indicated below, the address of each individual listed below is c/o Motus GI Holdings, Inc., 1301 East Broward Boulevard, 3rd Floor, Ft. Lauderdale, FL 33301.

Applicable percentage ownership in the following table is based on 15,690,151 shares of our common stock outstanding as of September 30, 2018 and also lists applicable percentage ownership based on shares of our common stock to be outstanding after completion of the offering, assuming no exercise by the underwriters of their option to purchase additional shares of our common stock. In addition, the percentage of shares beneficially owned based on shares of our common stock to be outstanding after the completion of the offering does not reflect any purchases in the offering by the beneficial owners listed in the following table.

Beneficial ownership representing less than 1% is denoted with an asterisk (*).

These agreements require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified. We also intend to enter into indemnification agreements with our future directors and executive officers.

Policies and Procedures for Related Party Transactions

Our board of directors has adopted a policy that our executive officers, directors, nominees for election as a director, beneficial owners of more than 5% of any class of our common stock, any members of the immediate family of any of the foregoing persons and any firms, corporations or other entities in which any of the foregoing persons is employed or is a partner or principal or in a similar position or in which such person has a 5% or greater beneficial ownership interest (collectively “related parties”), are not permitted to enter into a transaction with us without the prior consent of our board of directors acting through the Audit Committee or, in certain circumstances, the chairman of the Audit Committee. Any request for us to enter into a transaction with a related party, in which the amount involved exceeds \$100,000 and such related party would have a direct or indirect interest must first be presented to our Audit Committee, or in certain circumstances the chairman of our Audit Committee, for review, consideration and approval. In approving or rejecting any such proposal, our Audit Committee, or the chairman of our Audit Committee, is to consider the material facts of the transaction, including, but not limited to, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances, the extent of the benefits to us, the availability of other sources of comparable products or services and the extent of the related party’s interest in the transaction.

Director Independence

Our board of directors undertook a review of its composition, the composition of its committees and the independence of each director. Based upon information requested from and provided by each director concerning his or her background, employment and affiliations, including family relationships, our board of directors has determined that Mr. Hochman, Mr. Sherman, Mr. Jacobs, Dr. Nussbaum, Mr. Korangy and Mr. Pruden do not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is “independent” as that term is defined under the Rules of the Nasdaq Market and the SEC.

- 50,000,000 shares of common stock, par value \$0.0001 per share; and

The following statements are summaries only of provisions of our authorized capital stock and are qualified in their entirety by our certificate of incorporation, as amended. You should review these documents for a description of the rights, restrictions and obligations relating to our capital stock. Copies of our certificate of incorporation may be obtained from the Company upon written request.

Common Stock

Voting. The holders of our common stock are entitled to one vote for each share held of record on all matters on which the holders are entitled to vote (or consent to). When a quorum is present at any meeting of stockholders, any matter before any such meeting (other than an election of a director or directors) shall be decided by a majority of the votes properly cast on such matter, except where a different vote is required by law, by the rules or regulations of any stock exchange applicable to us, or pursuant to any regulation applicable to us or our securities, in which case, such different vote shall apply. A majority in voting power of the shares entitled to vote at the meeting, present in person or represented by proxy, shall constitute a quorum at any meeting of stockholders.

Dividends. The holders of our common stock are entitled to receive, ratably, dividends only if, when and as declared by our board of directors out of funds legally available therefor and after provision is made for each class of capital stock having preference over our common stock.

Liquidation Rights. In the event of our liquidation, dissolution or winding-up, the holders of our common stock are entitled to share, ratably, in all assets remaining available for distribution after payment of all liabilities and after provision is made for each class of capital stock having preference over our common stock.

Conversion Rights. The holders of our common stock have no conversion rights.

Preemptive and Similar Rights. The holders of our common stock have no preemptive or similar rights.

Redemption/Put Rights. There are no redemption or sinking fund provisions applicable to our common stock. All of the outstanding shares of our common stock are fully-paid and non-assessable.

Transfer Restrictions. Shares of our common stock are subject to transfer restrictions. Holders of our common stock may not transfer their securities unless (a) a registration statement is in effect under the Securities Act covering the proposed transfer and such transfer is made in accordance with such registration statement or (b) the securities are transferred in a transaction exempt from the registration requirements of the Securities Act and any related requirements imposed by applicable state securities laws. In the case of any transfer permitted under clause (b), the holder must notify us in writing of the proposed transfer and furnish us with an opinion of counsel, reasonably satisfactory to us, that the transfer will not require registration under the Securities Act or any applicable state securities laws. Each certificate representing a security contains a legend referring to this restriction on transfer and any legends required by state securities laws.

Preferred Stock

We are authorized to issue up to 10,000,000 shares of “blank check” preferred stock, par value \$0.0001 per share, with such designations, rights, and preferences as may be determined from time to time by our board of directors. Accordingly, our board of directors is empowered, without stockholder approval, to issue preferred stock with dividend, liquidation, conversion, voting, or other rights that could adversely affect the voting power or other rights of the holders of our common stock. The issuance of preferred stock could have the effect of restricting dividends on our common stock, diluting the voting power of our common stock, impairing the liquidation rights of our common stock, or delaying or preventing a change in control of our company. We currently have no plans to issue any shares of preferred stock.

Royalty Payment Rights Certificates

We have issued Royalty Payment Rights Certificates (the “Royalty Payment Rights Certificates”) entitling the holders of such certificates to the following royalty payment rights (the “Royalty Payment Rights”):

Royalties. If and when we generate sales of the current and potential future versions of the Pure-Vu System, including disposables, parts, and services, or if we receive any proceeds from the licensing of the current and potential future versions of the Pure-Vu System, then we will pay to the holders of our Royalty Payment Rights Certificates (the “Holders”) with the allocation of such Royalty Payment Rights between Holders determined as set forth below under “Allocation of Royalty Payments”, a royalty (the “Royalty Amount”) equal to, in the aggregate, in royalty payments in any calendar year for all products:

| <u>The Company Commercializes Product Directly</u> | <u>The Rights to Commercialize the Product is Sublicensed by the Company to a third-party</u> |
|--|---|
| 3% of any Net Sales* | 5% of any Licensing Proceeds** |

* Notwithstanding the foregoing, with respect to Net Sales based Royalty Amounts, (a) no Net Sales based Royalty Amount shall begin to accrue or become payable until we have first generated, in the aggregate, since inception, Net Sales equal to \$20 million (the “Initial Net Sales Milestone”), and royalties shall only be computed on, and due with respect to, Net Sales generated in excess of the Initial Net Sales Milestone, and (b) the total Net Sales based Royalty Amount due and payable in any calendar year shall be subject to a cap per calendar year of \$30 million. “Net Sales” is defined in the Royalty Payment Rights Certificates.

** Notwithstanding the foregoing, with respect to Licensing Proceeds based Royalty Amounts, (a) no Licensing Proceeds based Royalty Amount shall begin to accrue or become payable until we have first generated, in the aggregate, since inception, Licensing Proceeds equal to \$3.5 million (the “Initial Licensing Proceeds Milestone”), and royalties shall only be computed on, and due with respect to, Licensing Proceeds in excess of the Initial Licensing Proceeds Milestone and (b) the total Licensing Proceeds based Royalty Amount due and payable in any calendar year shall be subject to a cap per calendar year of \$30 million. “Licensing Proceeds” is defined in the Royalty Payment Rights Certificates.

We currently have not licensed any of our products to any third-party and are not in negotiations with respect to any such license. There is no guarantee that we will ever generate sales of, or Licensing Proceeds from, our products. The Holders may never receive any royalty payments and these Royalty Payment Rights may expire worthless.

Timing of Royalty Payments. With respect to products that we commercialize directly, royalty payments, if any, will be paid annually 15 business days after the issuance of our audited financial statements for the prior year in which such Net Sales were generated; for the avoidance of doubt, such payments shall begin only upon achievement of the Initial Net Sales Milestone without regard to whether the Initial Licensing Proceeds Milestone has been met. With respect to products that we sublicense or otherwise dispose of to a third-party, royalty payments, if any, will be paid 10 business days after the end of the applicable quarter in which such Licensing Proceeds are received by us; for the avoidance of doubt, such payments shall begin only upon achievement of the Initial Licensing Proceeds Milestone without regard to whether the Initial Net Sales Milestone has been met.

The royalty will be payable up to the later of (i) the latest expiration date of our patents issued as of December 22, 2016, or (ii) the latest expiration date of any pending patents as of December 22, 2016 that have since been issued or may be issued in the future (which is currently November 2034). Following the expiration of all such patents, the Holders of the Royalty Payment Rights will no longer be entitled to any further royalties for any period following the latest to occur of such patent expiration.

Allocation of Royalty Payment. Once the aggregate Royalty Payment Amount is calculated based on the criteria set forth above under “Royalties,” that amount will be allocated to the holders of the Royalty Payment Rights Certificates by multiplying the aggregate Royalty Payment Amount by the percentage set forth in each Holder’s Royalty Payment Rights Certificate.

Separability. The Royalty Payment Rights Certificates may be transferred, subject to the availability of an exemption from registration under applicable state and federal securities laws.

Unsecured Obligations. The Royalty Payment Rights are unsecured obligations of ours.

Placement Agent Royalty Payment Rights

In connection with completion of the 2017 Private Placement, we issued the Placement Agent royalty payment rights certificates (the “Placement Agent Royalty Payment Rights Certificates”) to receive, in the aggregate, 10% of the amount of payments paid to the holders of the Royalty Payment Rights Certificates. Registration Rights

Service Provider Warrants. Certain of our other warrants are entitled to piggyback registration rights with respect to the shares issuable upon exercise of such warrants. If we register any of our securities either for our own account or for the account of other security holders, such holders are entitled to include their shares in the registration. In the event we register securities in connection with an underwritten offering, the underwriters will have the right to limit the number of shares included in such offering. The holder of all of our outstanding warrants entitled to piggyback registration rights has executed a notice and waiver of piggyback registration rights, waiving any such piggyback registration rights in connection with this offering.

Lock-Up Agreements

Each of our directors and officers and the holders of substantially all of five percent (5%) or more of our common stock as of the time of the Initial Closing of the 2017 Private Placement have agreed that they will not (a) offer, sell, contract to sell, grant any option to purchase, hypothecate, pledge or otherwise dispose of or (b) transfer title to any shares of our common stock acquired prior to the 2017 Private Placement, which includes any shares of our common stock acquired upon the exercise of any warrants acquired prior to the 2017 Private Placement, for a period beginning on December 22, 2016 and ending February 13, 2019, without our prior written consent and the prior written consent of the Placement Agent.

In connection with the formation of Motus GI Holdings, Inc. in September 2016, certain affiliates of the Placement Agent and certain other parties not affiliated with us or the Placement Agent subscribed for an aggregate of 1,650,000 shares of our common stock (the "Formation Shares"), for which they paid an aggregate of \$82,500 (\$0.05 per share). Each of the holders of the Formation Shares have agreed that they will not (a) offer, sell, contract to sell, grant any option to purchase, hypothecate, pledge or otherwise dispose of or (b) transfer title to any shares of our common stock acquired prior to the 2017 Private Placement, for a period beginning on December 22, 2016 and ending February 13, 2019, without our prior written consent and the prior written consent of the Placement Agent.

In March 2017, we signed a consulting service agreement by which we granted the service provider 90,000 shares of our common stock for past services provided. The consultant has agreed that they will not (a) offer, pledge, sell, contract to sell, grant any option or contract to purchase, purchase any option or contract to sell, or otherwise dispose of, directly or indirectly, or (b) transfer title to 45,000 of the subject shares, for a period beginning the effective date of the consulting agreement and ending February 13, 2019, without our prior written consent.

In March 2018, we granted a service provider 15,000 shares of our common stock for services pursuant to a consulting agreement. The consultant has agreed that they will not (a) offer, pledge, sell, contract to sell, grant any option or contract to purchase, purchase any option or contract to sell, or otherwise dispose of, directly or indirectly, or (b) transfer title to the 15,000 shares for a period beginning the effective date of the consulting agreement and ending February 13, 2019, without our prior written consent.

Our officers and directors have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock for a period through the date 90 days after the date of this prospectus, except with the prior written consent of Piper Jaffray & Co., as the representative of the underwriters. The representative may in their sole discretion and at any time without notice release some or all of the shares subject to lock-up agreements prior to the expiration of the 90-day period. When determining whether or not to release shares from the lock-up agreements, the representative may consider, among other factors, the stockholder's reasons for requesting the release, the number of shares for which the release is being requested and market conditions at the time.

Anti-Takeover Effect of Delaware Law, Certain Charter and Bylaw Provisions

Our certificate of incorporation and bylaws contain provisions that could have the effect of discouraging potential acquisition proposals or tender offers or delaying or preventing a change of control of our company. These provisions are as follows:

- they provide that special meetings of stockholders may be called by the board of directors or at the request in writing by stockholders of record owning at least twenty (20%) percent of the issued and outstanding voting shares of our common stock;
- they do not include a provision for cumulative voting in the election of directors. Under cumulative voting, a minority stockholder holding a sufficient number of shares may be able to ensure the election of one or more directors. The absence of cumulative voting may have the effect of limiting the ability of minority stockholders to effect changes in our board of directors; and
- they allow us to issue, without stockholder approval, up to 10,000,000 shares of preferred stock that could adversely affect the rights and powers of the holders of our common stock.

We are subject to the provisions of Section 203 of the General Corporation Law of the State of Delaware, an anti-takeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in the following prescribed manner:

- prior to the time of the transaction, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon completion of the transaction that resulted in the stockholder becoming an interested stockholder, the stockholder owned at least eighty-five percent (85%) of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding; (1) shares owned by persons who are directors and also officers and (2) shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; and
- on or subsequent to the time of the transaction, the business combination is approved by the board and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least sixty-six and two-thirds percent (66 2/3%) of the outstanding voting stock which is not owned by the interested stockholder.

Generally, for purposes of Section 203, a “business combination” includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. An “interested stockholder” is a person who, together with affiliates and associates, owns or, within three (3) years prior to the determination of interested stockholder status, owned fifteen percent (15%) or more of a corporation’s outstanding voting securities.

Choice of Forum

Our certificate of incorporation, as amended, provides that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the exclusive forum for any derivative action or proceeding brought on our behalf; any action asserting a breach of fiduciary duty; any action asserting a claim against us, or any of our officers or Directors, arising pursuant to the Delaware General Corporation Law, our certificate of incorporation, as amended, or our bylaws; or any action asserting a claim against us that is governed by the internal affairs doctrine. This exclusive forum provision may limit the ability of our stockholders to bring a claim in a judicial forum that such stockholders find favorable for the disputes listed above, which may discourage such lawsuits against us, or any of our officers or directors.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS OF OUR COMMON STOCK

The following is a summary of the material United States federal income tax consequences to non-U.S. holders (as defined below) of their ownership and disposition of our common stock, but does not purport to be a complete analysis of all the potential tax considerations relating thereto. This summary is based upon current provisions of the Internal Revenue Code, or Code, existing and proposed United States Treasury Regulations promulgated thereunder, current administrative rulings, and judicial decisions, all as in effect as of the date hereof. These authorities may be changed, possibly retroactively, so as to result in United States federal tax consequences different from those set forth below. We have not obtained, and do not intend to obtain, any opinion of counsel or ruling from the Internal Revenue Service, or the IRS, with respect to the statements made and the conclusions reached in the following summary, and there can be no assurance that the IRS will agree with such statements and conclusions.

This summary also does not address the tax considerations arising under the laws of any non-United States, state or local jurisdiction or under any non-income tax laws, including United States federal gift and estate tax laws, except to the limited extent set forth below. In addition, this discussion does not address the potential application of the tax on net investment income or the alternative minimum tax. This discussion may not apply, in whole or in part, to particular non-U.S. holders in light of their individual circumstances or to holders subject to special treatment under the United States federal income tax laws, including, without limitation:

- insurance companies, banks or other financial institutions;
- tax-exempt organizations;
- pension plans;
- controlled foreign corporations or passive foreign investment companies;
- brokers or dealers in securities or currencies;
- traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;
- persons that own, or are deemed to own, more than 5% of our capital stock (except to the extent specifically set forth below);
- certain former citizens or long-term residents of the United States;
- persons that hold our common stock as a position in a hedging transaction, straddle, conversion transaction, synthetic security or other integrated investment;
- persons that hold or receive our common stock pursuant to the exercise of any employee stock option or otherwise as compensation; and
- persons that do not hold our common stock as a capital asset within the meaning of Section 1221 of the Code.

In addition, this discussion does not address the tax treatment of partnerships, including any entity or arrangement treated as a partnership for United States federal income tax purposes. Generally, the tax treatment of a person treated as a partner in such an entity will depend on the status of the partner, the activities of the partner and the partnership, and certain determinations made at the partner level. Accordingly, partnerships that hold our common stock, and partners in such partnerships, should consult their tax advisors.

THIS SUMMARY IS NOT INTENDED TO BE CONSTRUED AS LEGAL ADVICE. WE RECOMMEND THAT PROSPECTIVE INVESTORS CONSULT THEIR TAX ADVISORS REGARDING THE PARTICULAR U.S. FEDERAL INCOME TAX CONSEQUENCES TO THEM OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK, AS WELL AS ANY TAX CONSEQUENCES ARISING UNDER ANY STATE, LOCAL OR FOREIGN TAX LAWS, ANY APPLICABLE INCOME TAX TREATIES, OR ANY OTHER U.S. FEDERAL TAX LAWS (INCLUDING ESTATE AND GIFT TAX LAWS).

Definition of Non-U.S. Holder

For purposes of this discussion, you are a non-U.S. holder if you are a beneficial owner of our common stock that is not, for United States federal income tax purposes:

- an individual citizen or resident of the United States;
- a corporation, or other entity taxable as a corporation, created or organized in the United States or under the laws of the United States or any political subdivision thereof;
- an estate whose income is subject to United States federal income tax regardless of its source; or
- a trust whose administration is subject to the primary supervision of a United States court and which has one or more “United States persons” (as defined in the Code) who have the authority to control all substantial decisions of the trust, or which has made a valid election to be treated as a United States person.

Distributions to non-U.S. Holders

As described in the section titled “Dividend Policy,” we do not anticipate paying any cash dividends or making distributions of other property on our common stock in the foreseeable future. However, if we do make distributions of cash or property on our common stock, those payments will constitute dividends for United States federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under United States federal income tax principles. To the extent those distributions exceed both our current and our accumulated earnings and profits, the excess will constitute a return of capital and will first reduce a non-U.S. holder’s tax basis in our common stock, but not below zero, and then will be treated by a non-U.S. holder as gain from the sale of stock as described below under “Gain on Dispositions of Our Common Stock by Non-U.S. Holders.”

Subject to the discussion below on effectively connected income, any dividend paid to a non-U.S. holder generally will be subject to United States withholding tax either at a rate of 30% of the gross amount of the dividend or such lower rate as may be specified by an applicable income tax treaty. To receive a reduced treaty rate, a non-U.S. holder must provide us with an IRS Form W-8BEN or W-8BEN-E (or applicable successor form) and certify qualification for the reduced rate. If a non-U.S. holder is eligible for a reduced rate of United States withholding tax pursuant to an income tax treaty, such non-U.S. holder may obtain a refund or credit of any excess amounts withheld by timely filing an appropriate claim with the IRS. If a non-U.S. holder holds our common stock through a financial institution or other agent acting on such non-U.S. holder’s behalf, appropriate documentation will need to be provided to the agent, which then will be required to provide certification to us or our paying agent, either directly or through other intermediaries.

Dividends received by a non-U.S. holder that are effectively connected with such non-U.S. holder’s conduct of a trade or business in the United States (and, if an applicable income tax treaty so provides, that are attributable to a permanent establishment or a fixed base maintained by such non-U.S. holder in the United States), are generally exempt from the 30% withholding tax if certain certification and disclosure requirements are satisfied. To obtain this exemption, a non-U.S. holder must provide us with an IRS Form W-8ECI (or applicable successor form) properly certifying such exemption. However, such effectively connected dividends, although not subject to withholding tax, generally are taxed at the same United States federal income tax rates applicable to United States persons, net of certain deductions and credits. In addition, dividends received by a corporate non-U.S. holder that are effectively connected with the conduct of a trade or business in the United States may also be subject to a branch profits tax at a rate of 30% or such lower rate as may be specified by an applicable income tax treaty. Non-U.S. holders should consult with tax advisors regarding any applicable income tax or other treaties that may provide for different rules.

Any documentation provided to an applicable withholding agent may need to be updated in certain circumstances. The certification requirements described above also may require a non-U.S. holder to provide a United States taxpayer identification number.

For additional withholding rules that may apply to dividends, including dividends paid to foreign financial institutions (as specifically defined by the applicable rules) or to certain other foreign entities that have substantial direct or indirect United States owners, see the discussion below under the headings “Information Reporting and Backup Withholding” and “Withholdable Payments to Foreign Financial Institutions and Other Foreign Entities.”

Gain on Disposition of Our Common Stock by Non-U.S. Holders

Subject to the discussion below under the headings “Information Reporting and Backup Withholding” and “Withholdable Payments to Foreign Financial Institutions and Other Foreign Entities,” a non-U.S. holder generally will not be required to pay United States federal income tax or withholding tax on any gain recognized upon the sale, exchange or other taxable disposition of our common stock unless:

- the gain is effectively connected with the conduct of a trade or business by such non-U.S. holder in the United States (and, if an applicable income tax treaty so provides, the gain is attributable to a permanent establishment or a fixed base maintained by such non-U.S. holder in the United States), in which case the non-U.S. holder will be required to pay tax on the net gain derived from the sale or disposition at the rates and in the manner applicable to United States persons, and an additional branch profits tax at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) may also apply to a corporate non-U.S. holder;
- such non-U.S. holder is a nonresident alien individual who is present in the United States for a period or periods aggregating 183 days or more during the calendar year in which the sale or disposition occurs and certain other conditions are met, in which case the non-U.S. holder will be required to pay a flat 30% tax (or such lower rate as may be specified by an applicable income tax treaty) on the gain derived from the sale or disposition, which gain may be offset by United States-source capital losses for the taxable year of the sale or disposition; or
- our common stock constitutes a United States real property interest by reason of our status as a “United States real property holding corporation”, or USRPHC, for United States federal income tax purposes at any time within the shorter of the five-year period preceding such non-U.S. holder’s disposition of, or holding period for, our common stock, in which case the non-U.S. holder generally will be taxed on net gain derived from the sale or disposition at the rates applicable to United States persons.

We believe that we are not currently and will not become a USRPHC and the remainder of this discussion so assumes. However, because the determination of whether we are a USRPHC depends on the fair market value of our United States real property relative to the fair market value of our other business assets, there can be no assurance that we will not become a USRPHC in the future. Even if we become a USRPHC, however, as long as our common stock is regularly traded on an established securities market, such common stock will be treated as United States real property interests only if a non-U.S. holder actually or constructively holds more than 5% of such regularly traded common stock at any time during the shorter of the five-year period preceding such non-U.S. holder’s disposition of, or holding period for, our common stock. Non-U.S. holders should consult with tax advisors regarding any applicable income tax or other treaties that may provide for different rules.

Information Reporting and Backup Withholding

We (or the applicable paying agent) must report annually to the IRS the amount of dividends on our common stock paid to non-U.S. holders and the amount of tax withheld, if any. A similar report will be sent to each non-U.S. holder. Copies of this information reporting may also be made available under the provisions of a specific income tax treaty or agreement with the tax authorities in a non-U.S. holder’s country of residence.

Non-U.S. holders will generally be subject to backup withholding (at a current rate of 24%) for dividends on our common stock paid to such non-U.S. holders unless an exemption is established such as by, for example, properly certifying non-United States status on an IRS Form W-8BEN or W-8BEN-E (or applicable successor form). Notwithstanding the foregoing, backup withholding and information reporting may apply if either we or our paying agent has actual knowledge, or reason to know, that a holder of our common stock is a United States person.

Information reporting and backup withholding generally are not required with respect to the amount of any proceeds from the sale or other disposition of our common stock by a non-U.S. holder outside the United States through a foreign office of a foreign broker that does not have certain specified connections to the United States. However, if a non-U.S. holder sells or otherwise disposes of shares of common stock through a United States broker or the United States offices of a foreign broker, the broker will generally be required to report the amount of proceeds paid to such non-U.S. holder to the IRS and also to backup withhold on that amount unless the broker is provided appropriate certification of status as a non-United States person or an exemption is otherwise established. Information reporting will also apply if a non-U.S. holder sells shares of common stock through a foreign broker deriving more than a specified percentage of its income from United States sources or having certain other connections to the United States, unless such broker has documentary evidence in its records that such non-U.S. holder is a non-United States person and certain other conditions are met, or an exemption is otherwise established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment may be refunded or credited against a non-U.S. holder's United States federal income tax liability, if any, provided that an appropriate claim is timely filed with the IRS. Non-U.S. holders should consult with tax advisors regarding the application of the information reporting and backup withholding rules to investment in our common stock.

Withholdable Payments to Foreign Financial Institutions and other Foreign Entities

The Foreign Account Tax Compliance Act, or FATCA, imposes a United States federal withholding tax of 30% on certain payments to "foreign financial institutions" (as specifically defined under these rules) and certain other non-United States persons that fail to comply with certain information reporting and certification requirements pertaining to their direct and indirect United States security holders and/or United States account holders. Such payments include dividends on and, on or after January 1, 2019, gross proceeds from the sale or other disposition of our common stock. Under certain circumstances, a non-U.S. holder may be eligible for refunds or credits of such taxes. An intergovernmental agreement between the United States and an applicable foreign country may modify the requirements described in this paragraph. Non-U.S. holders should consult with tax advisors regarding the possible implications of this legislation and any applicable intergovernmental agreements on investment in our common stock.

U.S. Federal Estate Tax

Our common stock beneficially owned by an individual who is not a citizen or resident of the United States (as defined for United States federal estate tax purposes) at the time of their death will generally be includable in the decedent's gross estate for United States federal estate tax purposes and, therefore, may be subject to United States federal estate tax unless an applicable estate tax treaty or other treaty provides otherwise. Investors are urged to consult their own tax advisors regarding the United States federal estate tax consequences of the ownership or disposition of our common stock.

THIS SUMMARY IS NOT INTENDED TO BE CONSTRUED AS LEGAL ADVICE. NON-U.S. HOLDERS ARE URGED TO CONSULT WITH TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE UNITED STATES FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATION, AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE UNITED STATES FEDERAL ESTATE OR GIFT TAX RULES OR UNDER THE LAWS OF ANY STATE, LOCAL, NON-UNITED STATES OR OTHER TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY, INCLUDING THE CONSEQUENCES OF ANY PROPOSED CHANGE IN APPLICABLE LAWS.

UNDERWRITING

Subject to the terms and conditions of the purchase agreement entered into with Piper Jaffray & Co., as representative of the several underwriters of this offering, we have agreed to sell to the underwriters, and the underwriters have severally agreed to purchase from us the number of shares of common stock indicated in the table below:

| Underwriter | Number of Shares |
|---------------------------------|-------------------------|
| Piper Jaffray & Co. | 4,500,000 |
| A.G.P./Alliance Global Partners | 250,000 |
| Dougherty & Company LLC | 250,000 |
| Total | 5,000,000 |

The underwriters have advised us that they propose to offer the shares of common stock to the public at \$2.70 per share of common stock to certain dealers at that price less a concession not in excess of \$0.1134 per share of common stock. After the offering, this figure may be changed by the underwriters. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

The underwriting fee is equal to the public offering price per share of common stock less the amount paid by the underwriters to us per share of common stock. The following table shows the per share of common stock and total underwriting discounts to be paid to the underwriters in connection with this offering assuming both no exercise and full exercise of the underwriters' option to purchase additional shares of common stock:

| | Without Option Exercise | With Full Option Exercise |
|-----------|--|--|
| Per Share | \$ 0.189 | \$ 0.189 |
| Total | \$ 945,000 | \$ 1,086,750 |

We estimate that the total fees and expenses payable by us, excluding underwriting discounts and commissions will be approximately \$450,000, which includes up to \$125,000 that we have agreed to reimburse the underwriters for fees incurred by them in connection with this offering.

In connection with our IPO we granted the representative of the underwriters a right of first refusal during the thirty month period following February 13, 2019, the effective date of our IPO prospectus, to act as our exclusive financial advisor, sole book-running manager, or exclusive placement agent, as the case may be, in connection with any restructuring transaction, any acquisition or disposition transaction, any public offering, any Rule 144A offering or any private placement of securities until the earlier of (i) the expiration of the thirty month period following February 13, 2019, the effective date of our IPO prospectus, or (ii) the aggregate gross proceeds to us in such transactions exceeds \$50,000,000, subject to certain specified exceptions. Any such engagement will be on terms and conditions customary to the representative of the underwriters for similar transactions, and will be governed by separate agreement.

We have agreed to indemnify the underwriters against certain liabilities, including civil liabilities under the Securities Act, or to contribute to payments that the underwriters may be required to make in respect of those liabilities.

We, each of our directors and officers and certain of our shareholders have entered into lock-up agreements with the underwriters. Under these agreements, we and each of these persons may not, without the prior written approval of the underwriter, subject to limited exceptions, offer, pledge, sell, offer to sell, contract to sell or lend, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock or publicly disclose the intention to make any offer, sale, pledge or disposition, or enter into any swap, hedge or similar arrangements, or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of our common stock or such other securities. In addition, subject to limited exceptions, we have agreed not to file any registration statement under the Securities Act for any such transaction or which registers, or offers for sale, our common stock or any securities convertible into or exercisable or exchangeable for our common stock, and each of our directors and officers has agreed not to make any demand for, or exercise any right with respect to, the registration under the Securities Act of any shares of our common stock or any security convertible into or exercisable or exchangeable for our common stock, in each case without the prior written approval of Piper Jaffray & Co. These restrictions will be in effect for a period of 90 days after the date of this prospectus supplement.

Our shares of common stock are listed on The Nasdaq Capital Market under the symbol "MOTS."

Price Stabilization and Short Positions

To facilitate the offering being made pursuant to this prospectus supplement or the concurrent preferred stock offering, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of our common stock during and after the offering. Specifically, the underwriters may over-allot or otherwise create a short position in the common stock for its own account by selling more shares of common stock than we have sold to the underwriters. Short sales involve the sale by the underwriters of a greater number of shares than the underwriters is required to purchase in the offering. The underwriters may close out a short position by exercising the over-allotment option or by purchasing shares in the open market.

In addition, the underwriters may attempt to stabilize or maintain the price of the common stock by bidding for or purchasing shares of common stock in the open market and may impose penalty bids. If penalty bids are imposed, selling concessions allowed to other broker-dealers participating in the offering are reclaimed if shares of common stock previously distributed in the offering are repurchased, whether in connection with stabilization transactions or otherwise. The effect of these transactions may be to stabilize or maintain the market price of the common stock at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the common stock to the extent that it discourages resales of the common stock. The magnitude or effect of any stabilization or other transactions is uncertain. These transactions may be effected on The Nasdaq Stock Market or otherwise and, if commenced, may be discontinued at any time. The underwriters may also engage in passive market making transactions in our common stock. Passive market making consists of displaying bids on The Nasdaq Stock Market limited by the prices of independent market makers and effecting purchases limited by those prices in response to order flow. Rule 103 of Regulation M promulgated by the SEC limits the amount of net purchases that each passive market maker may make and the displayed size of each bid. Passive market making may stabilize the market price of the common stock at a level above that which might otherwise prevail in the open market and, if commenced, may be discontinued at any time.

Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of shares of our common stock. In addition, neither we nor the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

This prospectus may be made available on a website maintained by the underwriters and the underwriters may distribute this prospectus electronically.
